Author Speaks ToWT Students

Every Negro in the United States must know his place and that place is in the center of a stereotype, John Griffin said here last week.

Griffin, 47, author of several books including a best-seller, "Black Like Me", was speaking to a group of sociology students from West Texas State University and several Panhandle Educational Services Organization teachers.

Hubert Oppe, associate professor of sociology at WTSU, invited the author here for a series of lectures.

Griffin, through a process utilizing internal medications and complexion touch-ups with iodine, changed the color of his skin from white to black in order to live for six months with Negroes and learn their problems. "Black Like Me" is the story of his experiences.

"The white man judges the Negro only by his own criteria," Griffin asserted.

The stereotype of which Griffin spoke, he said, was not only in the South but throughout the United States.

"When men see a pigment-colored face," he explained, "certain connections are set up."

The Negro, Griffin continued, is able to see only four basic types of white man.

One type, he said, is not deceptive in his contempt and disgust for the Negro. Another viewed the Negro class as a

Equalization Board Meets Next Monday

Randall County commissioners court next Monday will sit as a board of equalization on county taxes.

Commissioners will hear complaints on county taxes from 2 until 5 p.m.

County Tax Assessor-Collector Bill Money said there are about 100 cases in which valuations are higher this year than last year.

Monday of this week commissioners authorized the advertising for bids for a two-way radio for a Texas Highway Patrol car. The radio will be on the sheriff's department frequency allowing better cooperation between the Highway Patrol and the sheriff's department.

The court accepted the bid of Tom W. Carpenter Company on a new road sweeper for county Precinct 2. The bid was $1,529.68 and only one bid was submitted.

Two commissioners, B. R. Jones and Bill Butler, were not present for the Monday meeting.

Autopsy Is Awaited In Man's Death

Results of an autopsy in the death of Ronny Burl Bruce of Deacon Road in south Amarillo were not available at noon Wednesday.

Mr. Bruce, 27, died Saturday during brain surgery at Northwest Texas Hospital in Amarillo.

A preliminary report showed death came by a skull fracture.

A detective at the Amarillo Police Department said the death appeared to have re-

LSD Bill Is Filed Unsigned

Governor John Connally has filed without signature a bill adding Lysergic Acid Diethylamide to the list of dangerous drugs.

The measure will become law Aug. 28.

No explanation was given for not signing the legislation which was introduced by Senator Grady Hazlewood of Canyon.

The bill makes it illegal to possess, sell or manufacture such hallucinatory drugs as LSD, mescaline and peyote.

The bill is aimed at providing state officers with laws to meet increased use of LSD in Texas, especially on college campuses.

Grazing Acreage Approved

Randall County has been approved for emergency haying and grazing of acreage diverted under the Conservation Reserve, Cropland Adjustment Program and Feed Grain-Cotton Programs.

Don Lloyd, Agricultural Stabilization and Conservation Service manager here, said the "layout ground" in the county could be grazed through the emergency program until July 31.

Farmers who wish to use their "layout ground" for grazing must sign up with the ASCS office, he said, and pay $1 to ASCS per acre per month for use of the land.

Lloyd emphasized the applications for using the land must be filed before starting the grazing to avoid a program violation.

Assistant Postmaster Is Named

Ross Russell has been named as assistant postmaster for Canyon, according to an announcement from the regional director, B.M. Myers of Dallas.

Russell has served as acting assistant postmaster since December 1966, when Lee Roy

ROSS RUSSELL

Moreland was advanced due to the retirement of Marion Higdon.

The appointment of Russell as assistant postmaster will become effective July 1, according to Lee Roy Moreland, who was last week named to the position as permanent postmaster here.

Russell has worked with the Canyon Post Office since November 16, 1953 when he was named a substitute carrier. He was advanced to substitute clerk on December 1, 1956 and appointed as regular clerk on October 4, 1958, a position which he held until the recent advancement.

Russell is married. He and his wife have two sons, Ronnie and Steven.

He serves as assistant scoutmaster with Boy Scout Troop 66 and is a deacon of the First Christian Church of Canyon. He was formerly in the Maritime service and with the United States Army from January 1946 until July 1947.

Drouth Breaking Rain, Some Hail In County

The moisture situation in Randall County is the best thus far this year, according to John Brazzil, county agent.

Following rains last Thursday and Friday, many combines were still unable to run Wednesday because of soft soil, he noted.

Some high winds were reported Friday night. Wind overturned chairs at the Panhandle Heritage Foundation Amphitheater in Palo Duro Canyon. Some damage was done.

Reports from around the county indicate moisture for the two-day period ranging from .40 inches west of Umbarger to seven inches in the Jowell Community.

Edgar Robinson in the Jowell Community received seven inches plus some hail, while Anton Handing at Umbarger said he had received 2.52 inches for the period. West of Umbarger, he said, a farmer received a scant .40 inches.

The Robinsons will have to replant some of their dryland grain sorghums because of the excessive amount of moisture for the two days, she said.

Phillip Fortin, who farms north west of the city, received some small hail and 3.40 inches of moisture.

Rains at the Warren Hereford Ranch east of Canyon totaled four inches for the two days last week.

Weeds growing in wheat fields may present a problem in harvesting this year, Brazzil said. Before the rains, weeds were not tall enough to hinder the

Standley Resigns Bank Post

Don E. Standley has resigned as vice president of First National Bank.

His resignation became effective Thursday of last week. He has not announced plans for the future.

Standley is a native of Oklahoma. He moved here with his parents in 1941 and is a graduate of Canyon High School and West Texas State University where he received a degree in business.

He was graduated from the School of Banking of the South at Louisianna State University and then became an assistant national bank examiner. He held that position for two years and then returned to Canyon as an assistant vice president of the First National Bank in 1951. He was promoted to vice president in 1953.

Kraus Entry Is In Top Bracket

BY WAYNE BOARD

A professor at West Texas State University has received an honorable mention award in a world-wide competition on the theory of gravity.

Dr. Alfred A. Kraus, Jr., director of the WTSU Killgore Research Center, entered the annual competition sponsored by the Gravity Research Foundation of New Boston, New Hampshire and was one of 13 to receive an honorable mention.

Receiving $1,000 as first prize in the contests was Dr. P. A. Sturrock, Institute for Plasma Research at Stanford University.

Other universities on the top five list of award winners include Cambridge and Universitat Hamburg in Germany.

The paper written by Dr. Kraus concerns a modification of Newton's law of gravity.

According to Dr. Kraus's theory, at distances of over 10 million light years, gravity is not as strong as Newton had thought.

The paper, entitled "Non-Zero Rest Mass Of The Graviton", establishes about six reasons that explain why Newton's theory may not have gone far enough.

"Up to the present time," Dr. Kraus said, "no theory has given any reasonable explanation of the two-stage formation of the universe. Two-stage means both galaxies and

Tourist Trails Designated

"Palo Duro Trail" will be the name designating tourist attractions in Randall County for the Texas Travel Trails Committee.

Representatives of the Canyon and Amarillo Chambers of Commerce, Randall County and Canyon City Commissioners, Randall County Historical Survey Committee, Panhandle Plains Historical Museum met last week to choose a name for the trail in the county.

The project, through the Texas Travels Trails Committee, will map scenic routes and list attractions for tourists visiting the State. The trails committee was appointed by Gov. John Connally.

Markers, to be erected by the Texas Highway Department, will be placed at Palo Duro Canyon State Park, the Panhandle Plains Historical Museum, Buffalo Lake Refuge, Pioneer Amphitheatre and Amarillo Lake.

The markers will be purchased by local organizations at a cost of $35 each.

A list of tourist attractions must be submitted to the committee in Austin by June 30. Maps listing the attractions will be published in October.

Those locations designated as "things to see and do" in Randall County will include "TEX-

A swimming course for adults will be conducted at the Canyon City Pool if enough interest is shown, according to Wayne Phemister, park and recreation superintendent.

Teacher Pay Hike Gets Trustee Nod

Canyon school board Tuesday night voted to table action on improvement of Canyon Junior High School building.

The board had been considering for several months proposals to either build a new junior high sxhool building or remodel the existing building.

Estimates placed cost of building a new building at $1,200,000 and remodeling at $750,000.

The board also voted blanket pay raises for Canyon teachers.

Jerry LaGrone made the motion that action on the junior high school building be tabled. He said his reasons for making the motion were due to agricultural problems at this point in the district and the apparent stable condition of growth.

Walter Graham seconded the motion and the vote in favor of tabling was unanimous.

Board member Bill Davis said the junior high school building question will probably be considered by the board again next spring.

Two men appeared at the meeting to speak against any action on the junior high building at the present time. They were Fletcher Sims, Jr., and Dick Flenniken.

Flenniken said he hopes someday to be a member of the Canyon school board and that he

July Roundup Plans Begin

The week end of July 21-22 has been selected for the annual Randall County Round-Up and Old Settlers Reunion, according to an announcement by the Canyon Chamber of Commerce.

A full slate of activities are being planned for the two-day celebration. Various civic clubs and organizations are planning events for the week end.

Additional clubs and civic organizations may join in the celebration with projects and parade floats, according to the planning committee. Clubs that would like to sponsor a project or booth should contact Dr. Burwell Southern, president of the Chamber of Commerce.

Floats for the parade are also being sought. All clubs and organizations wishing to join in this phase of the roundup should contact Dr. Dudley Moore for information on the parade.

"We are hoping several more activities will be included in the celebration," said Roland Black, manager of the Chamber of Commerce.

Activities already being planned for the roundup and reunion include the Old Settler's Reunion at the Panhandle-Plains Historical Museum. This will be sponsored by the Chamber of Commerce on opening day. A luncheon also will be held.

Other activities planned for Friday, July 21, are a horseshoe pitching contest, sponsored by the Canyon Rotary Club; a young people's dance, sponsored by the Canyon Kiwanis Club; and a bingo booth, sponsored by the Canyon Jaycee-Ettes.

Planned for Saturday are the annual Jaycee Beard Contest; the community barbecue, prepared and served by the Jaycees; a square dance, co-sponsored by the Chamber of Commerce and the Canyon Capers Square Dance Club; and a bingo booth, sponsored by the Canyon Jaycee-Ettes.

Highlighting Saturday's activities will be the annual parade which will follow the city's designated route down Fourth Avenue. The parade has been set for 4:30 p.m.

Randall County Sheriff's Posse will also sponsor the World Championship Pony Express contest at the RCSP arena, east of Canyon, beginning at 7:30 p.m. Saturday.

Throughout both days refreshment stands will be operated on the courthouse square by members of Boy Scout Troop 108.

Carnival Continues

The annual Lions Club-sponsored carnival, that opens each evening at 7 o'clock, will continue through Saturday.

At the carnival grounds near Rex Reeves Elementary School, a variety of rides and amusements are offered.

The Lions share of the proceeds from the carnival will be used for local projects including sight conservation.

No general admission is charged.

Clean Up Dates Are Scheduled

Dates for the annual Clean Up, Paint Up, Fix Up campaign in Canyon has been scheduled July 10-15.

The dates for the annual affair were approved at a meeting of representatives from various civic clubs in Canyon Monday.

"We hoped that through the service clubs we could get an idea of what needs to be done," said Dale Killingsworth, chairman of the campaign.

This year's slate of activities will include front yard clean up, Monday; back yard clean up, Tuesday; fix up, Wednesday; paint up, Thursday; alley clean up, Friday; and inspection, Saturday.

Roland Black, manager for the Canyon Chamber of Commerce, suggested that residents be encouraged to clean up weeds four feet from their property lines.

Johnny Janak, city clerk, said the Sanitation Department would haul weeds away that had been piled in the alleys.

A representative of the Jaycees said his organization was repairing playground equipment at the City Park and that the project should be completed by July 10.

The Girl Scouts will be asked to paint "Clean Up Canyon" signs to be placed in business

CANYON RIM

August 28 will mark a victory for this column in a five-year battle to outlaw LSD.

August 28 a bill making it illegal to possess, manufacture or sell such hallucinatory drugs as lysergic acid diethylamide (LSD), mescaline and peyote becomes law.

I can't understand why Governor Connally filed the measure without his signature but I am thankful he did not veto it.

Senator Grady Hazlewood of Canyon authored the bill and guided it through the legislature. The senator only last week said he was influenced in his decision to sponsor the LSD bill by articles he read in The Canyon News.

This column became concerned about hallucinatory drugs in the summer of 1962 when a peyote, LSD cult was bared here.

Less than a score of young people were members of the cult but the protent was ominous. It was made up mostly of young college people.

They talked freely about their experiences. They said that while under the influence of LSD or peyote they were able to get outside their bodies and overcome their worries and complexes.

One young man, about to go before the grand jury, expressed sincere sympathy for me because I had never experienced the delights and enlightenment he claimed to have felt while under hallucinatory influence.

Several members of the cult went before a Randall County grand jury but the grand jury was unable to take any action because there was no law against possessing or taking the drugs. The grand jury took the only action it could. It termed the existence of the cult as "dangerous to the community."

Dr. Hugh Pennal, a well known Amarillo psychiatrist, told The Canyon News in 1962 that the hallucinatory drugs could do "permanent damage to the brain."

No doubt members of the legislature became alarmed when a cult with a large membership became a problem at the University of Texas.

Members of the Canyon cult either drifted away from the community or quit using the drugs. I have heard nothing further from the group since the 1962 grand jury session investigated it.

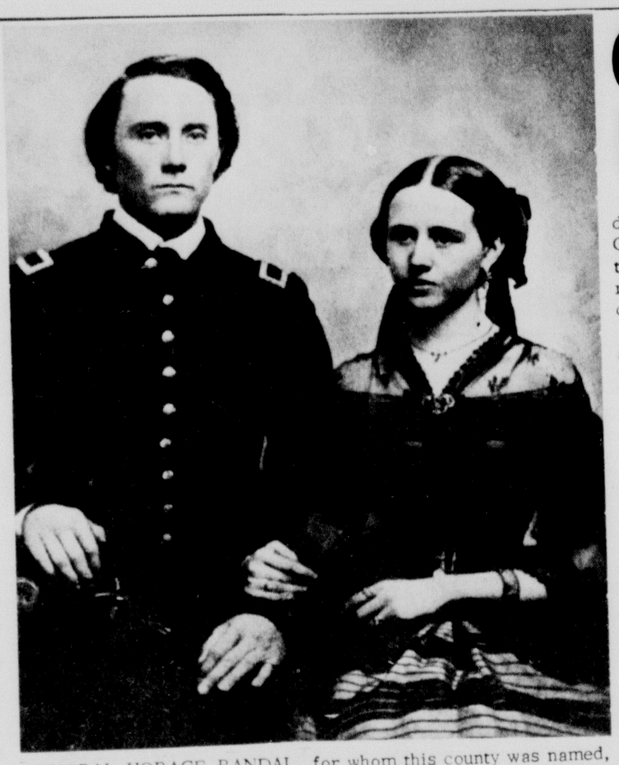
* * *

I was sorry for the delay in action on the junior high school building but I agree that a bond issue might not carry now.

I think that it will only be a delay. Nothing has been done to solve the problem and we will have to face it sooner or later.

I expect, as board member Bill Davis said, that it will come up again next spring. The fact remains that three Canyon School System grades are poorly housed.

The situation at Canyon Junion High School is not conducitive to learning and is not in keeping with the physical plants of the remainder of our school system.



GENERAL HORACE RANDAL, for whom this county was named, is shown here with his wife. Representatives of the Randall County Historical Survey Committee will ask county commissioners that the picture be placed in the courthouse. This picture was supplied by the US Military Academy at West Point.

Group Seeks To Place Picture In Courthouse

Representatives of the Randall County Historical Survey Committee Monday will request that a picture of General Horace Randal be plcaed in the courthouse here.

Mrs. C. W. Warwick said she and other survey committee representatives plan to ask Randall County commissioners to hang the picture in the courthouse in memory of the man for whom the county was named.

Mrs. Warwick received information and a picture of Col. Randal in April from West Point Military Academy.

Randal was born in McNariry County, Tenn., Jan. 1, 1833.

In 1839 the family moved to Texas, locating near San Augustine.

Randal graduated from the United States Military Academy at West Point July 1, 1854, as second lieutenant of infantry. He was assigned to frontier duty in New Mexico, as Fort Washita in Indian Territory and at Fort Bliss and Fort Davis in Texas between 1854 and 1855.

He had done scouting duty in the Texas Panhandle and it was here he met and married his second wife. No account of his first marriage is available.

Randal took up residence at Fort Worth where his son Horace Jr. was born.

He resigned from the US Army Feb. 27, 1861 and went into the Confederate service. He became Colonel of the Second Brigade, 28th Cavalry Regiment and served in Arkansas and Louisiana.

He led the brigade in repulsing N. F. Bank's Red River Campaign in the spring of 1864 and on April 8 was commissioned Brigadier General.

The news of his promotion did not reach him. He was killed in the battle of Jenkin's Ferry April 30, 1864, and was buried in Marshall, Tex., where a monument was erected at his grave.

A monument was erected in 1936 by the Centennial Commission in honor of Gen. Randal. It was placed on the highway north of Canyon near the T-Anchor headquarters which is on the West Texas State University farm. The marker was later moved to the park south of Canyon on Highway 87.

Historical markers have been placed on Highway 217 which leads to Palo Duro Canyon State Park just east of the Washington St., turn off; on Highway 87 and 60 on the east side of Hunsley Hills; and one on the highway west of Umbarger.

The inscription on all these markers reads:

"Texas Historical Committee, Randall County. Created 1876, named for Confederate General Horace Randal. Settled by Rancher Leigh Dyer, Brother-in-law of Chas. Goodnight. Man who brought first cattle to Panhandle. Organized in 1889. County seat; Canyon Home of West Texas State University, Panhandle Plains Historical Museum, Palo Duro State Park, Buffalo Lake."

FEDERAL FUNDS IN CANYON SCHOOLS

(Editor's Note: This article is one of a series on Canyon Schools. It is written by a member of the faculty.)

Schools throughout the United States are using federal funds to aid in giving students more opportunities and a better overall education. This is being done in order to supplement what local districts can do. Canyon schools are using these funds in much the same manner. Programs which have been developed include the Elementary and Secondary Education Act, or ESEA, and National Defense Education Act, or NDEA. These programs are administered through the state education agency. All federal funds coming to Canyon schools are administered through the Texas Education Agency.

Programs in which Canyon schools have been involved up to this time include Title I, ESEA Title II ESEA, and Title III NDEA. Title I is the program which enables the school to devote more time and materials to assisting the culturally, educationally, and economically deprived student in the school. Efforts under this program have been aimed at helping the above mentioned student improve his reading skills. All types of reading machines, reading material, picture material and other visual as well as audio material are provided. Another article in this series will explain the operation of the reading program commonly known, in this area, as PESO. It is through Title I that all the materials and time is made available. Title I was enacted in 1963 but was not begun in Canyon until the second semester of the 1965-66 school year. Canyon Independent School District has received some $9,100.00 which has been used locally. There are two full time teachers working in this activity in the elementary grades. A reading program is in operation on the seventh grade level of the junior high school which is operated in much the same manner as PESO, but it is not a part of the federally funded program. The latter is financed through local funds.

Title II, ESEA, is another program being utilized by the Canyon schools. It provides funds for use in obtaining supplies and materials needed in school libraries. These funds have been used to purchase such items as books of many kinds, processing of library items, phonograph records for use in classrooms, films and filmstrips for classroom use, periodicals, newspapers, some textbooks, and other items found in school librarires.

The Title II program has made it possible to upgrade the school libraries with the addition of about 1 1/2 books per child over the two year period. Although books are the main stream of materials which go through a library the other items are most helpful in the learning experience of youth. The other materials mentioned have been and are being used by both students and teachers in many learning situations. Learning is reinforced and accelerated by use of more than one of the senses. These materials appeal to many senses.

Title III, NDEA has contributed to the school life of students with materials, equipment and supplies in the critical areas of math, English, science, reading, history, geography, government, guidance, and foreign language. This program, as well as the others, is aimed at both the elementary and secondary levels. Some of the items made available through this program are: Maps and globes, instruments for instruction, equipment for science labs, recorders and record players used in all areas, projectors and other instructional aids. These materials are all being used to give greater depth to learning activities in all subjects. The program is reaching every student in the school to some degree.

The federal funds received by the Canyon schools are making education more meaningful to students and are allowing them to delve into areas that have heretofore been more or less unexplored. Students are moving at a more rapid pace thereby getting ready earlier to delve deeper into the vast storehouse of knowledge now available to them.

functioning group of objects.

"The third and fourth group saw the Negro quite differently," he said. "The third saw us as humans and the fourth resembled the third except they would deceive the Negro."

"The fourth was what we called the G. W.B. -- great white buddy," Griffin remarked.

The author also told several stories about his life in the Negro communities across the country.

Griffin recalled being forced to go until 8:30 at night in Alabama before finding a restaurant that would serve breakfast to a Negro.

He said he had also stood at the doors of churches in many denominations although he was allowed to enter few of them.

"They wanted to protect their house of God from this contaminated thing," he said pointing to his body.

Griffin said white men schedule their activities for the day with little thought of where they will eat or perform bodily functions.

"How can a Negro have his mind on higher things," Griffin asked the audience. "His mind must be on where to find restaurants that will serve him something to eat. He must also be able to find mixed restrooms.

Griffin also spoke of the white's "system".

"The 'system' told us we should defend our country," he said, "and to pay our taxes. In the system we had all the good things but we had the 'buts' too. You pay taxes and defend your country, 'but' you can't vote."

Griffin recalled an incident in the South where a group of white men dragged a Negro minister from his car and beat him. His wife, thinking he was dead, asked to pray for her husband.

"It's too damned late to pray for him," the white men said.

The author recalled that as a white man he was treated well, but when he became a Negro attitudes changed.

"As a white man, one particular girl in a Southern drug store treated me very well," he said.

Griffin said he later returned to the drug store as a Negro and was not recognized.

"I told the same girl that I was a diabetic and asked where I might get a drink of water," he continued.

Ignoring a drinking fountain less than three feet away, the girl began giving him directions where he "might" find a place to get water.

"She gave me directions to a drinking fountain 17 blocks away. She meant nothing by it -- that was simply the custom," he declared.

Griffin, who was educated in France, returned to the United States to serve in the Air Force. Twice wounded, he lost most of his sight as the result of brain damage.

Later completely blind he returned to Mansfield, Tex., to attend school and learn to read braille. As a means of livelihood, Griffin began breeding registered livestock and writing.

His first novel, "The Devil Rides Outside", was published in 1952. Since his sight was restored, Griffin has written a book about Texas, served as a senior editor of "Ramparts" magazine and written "Black Like Me."

His third and fourth novels along with his autobiography will be published later this summer by Houghton Mifflin Company. It will tentatively be called "The Griffin Reader".

He now lives in Fort Worth with his wife and four children.

The officer said a nurse at the VA hospital heard a noise about 3 a.m. Friday. She checked and found Bruce on the floor of a hall.

He had a cut on the head that was not noticed by a physician when he was admitted into the hospital.

Funeral services were held Monday at LaGrone Funeral Chapel with the Rev. Strauss Atkinson, pastor of the First Baptist Church, officiating.

Interment was at Dreamland Cemetery under the direction of LaGrone Funeral Home. Pallbearers were Billy Bowman, Grady Faulkner, A. J. Goldsmith, O. F. Goldsmith, Will Ed Bell, Hershel Cook, Don Ferrel and Bill O'Dell.

Mr. Bruce had lived in Canyon-Amarillo area since graduation from Estelline High School in 1957. He attended West Texas State University here and served with the United States Army in Korea. He was a horse trainer.

He was born July 5, 1939 at Cornell.

stars were formed."

Dr. Kraus went on to explain that all theories until recently explained only the formation of stars or galaxies.

"Lately," Dr. Kraus said, "two theories have come out explaining a combination of the two-stage process. One is by Dr. E. R. Harrison and the other is mine."

Dr. Harrison, head of the department of Physics and Astronomy at the University of Cambridge England, took fifth p ce in the gravity theory competition.

Dr. Kraus is continuing his work which may lead, he said, to a more thorough understanding of the formation of galaxies and stars.

He has also applied for a grant from the National Aeronautics and Space Administration to continue research.

Dr. Kraus completed undergraduate work at Massachsetts Institute of Technology and received his Ph. D. from Cal Tech.

He taught at Rice University from 1953-1956 and was head of the University of the Pacific physics department at the age of 30.

He was also head of the mathematics and physics department and director of the Computer Center at New Mexico Highlands University.

As those on the honorable mention list are grouped alphabetically, it is not known how Dr. Kraus ranked below those first five named.

"I would like to express my appreciation for the generousity of the Killgore family in providing facilities for doing research at WTSU. The benefits of the Killgore gift will follow for many years."

moved here principally because he thought Canyon would be a good place in which to educate his children.

He said a moratorium should be declared on school buildings at the present time because no one knows what effect birth control pills will have on future needs for school facilities.

LaGrone stipulated in his motion that some repair work be done on the present junior high school building.

"I think it would be folly to abandon that building (the junior high school building) or to do extensive repair on it," declared Sims. He said he had made a tour of the building.

Flenniken suggested that a better maintenance program should be provided for Canyon schools.

The board voted a pay raise for Canyon teachers for the coming year.

The state legislature provided pay raises at state expense ranging from $396 on the high end of the pay scale to $630 for beginning teachers who are on the low end of the pay scale.

The Canyon board voted a blanket additional $100 across the board supplement to teacher pay and a special supplement ranging from $50 to $200 for beginning teachers on the lower end of the pay scale.

Beginning teachers with a bachelors degree will now draw $5,434 a year as compared to $4,675 last school term. The pay scale rises with experience.

A teacher with a bachelors degree and 10 years of experience now will draw $6,404 as compared to $5,764 last school term.

A beginning teacher with a masters degree will now draw $5,740 as compared to $4,810 last school term.

The pay for holders of masters degrees also rises with years of experience. A teacher with a masters degree and 16 years of experience will now draw $7,412 as compared to $6,916 last term.

The bulk of the salary increase will come from the state. School Supt. Huelyn Laycock said the raise will cost the local school district only about $37,000.

This amount will come from $58,647 funds on hand.

The board also voted to purchase an electronic posting machine at approximately $18,000 to be used by the school system and the school tax office.

Laycock believes the machine, which has a magnetic tape memory system, will pay for itself in cutting overhead.

The school will pay for the posting machine over a three-year period.

Estimated school budget for the 1967-1968 school term is $1,431,688 as compared to a budget of $1,301,419 during the past school term.

Auditor E. T. Cummings gave a supplemental audit report which was approved by the school board.

Laycock announced that James Perkins has resigned as assistant high school principal to go to Sanford-Fritch as high school principal.

The board approved the appointment of David Corley to replace Perkins. Corley has been assistant coach and math teacher.

Laycock said substitute teacher pay will be increased from $12 a day to $15.

Resignations of Mrs. Susie Madsen, Jerry Blackerby, Wayne Turley, Herman Demus and Carroll and Renee Duncan were accepted.

The board accepted Laycock's recommendation for hiring of Mrs. Karen Wright, Baylor University; Robert Wright, West Texas State University; Mrs. Alice Cates, Texas Tech; Mrs. Helen Currie, WTSU; and Mrs. Frances Uhl, Lamar Tech.

JC Hospital Funds Sought With Matches

Match box collections are being made by the Canyon Jaycees in connection with a statewide project to raise funds for opening a wing of the Texas Handicapped Children's Hospital in Gonzales.

Opening of the unused hospital wing is expected to cost about $200,000, according to Carl Miller, Canyon's Jaycee chairman. The goal for 1967 has been set at $30,000

The "Match box" project is underway in Canyon with several local businesses participating in an effort to raise the funds.

The Jaycees provide a contribution box which is filled with give-away matches by the various local businessmen. The project will continue all year.

Drive-in restaurant owners will be asked to make a special effort to control litter around their places of business.

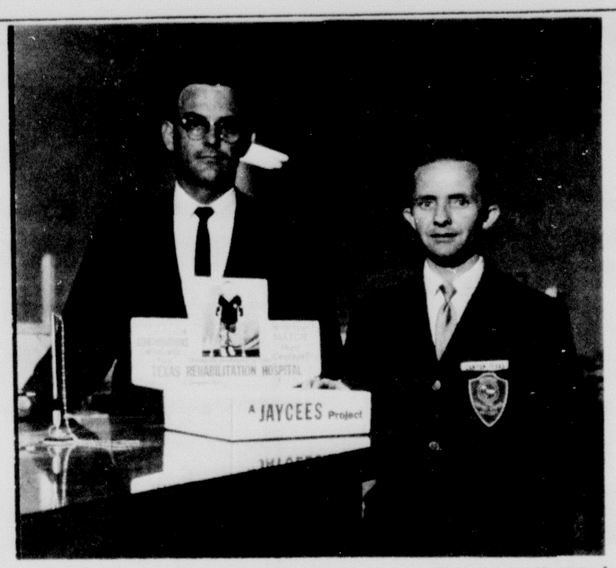
Killingsworth asked that the representatives speak to their clubs concerning the campaign.

The group will meet Monday at 8:30 p.m. in the Randall County Commissioners courtroom to map further plans for the activities.

News Brief

CANYON CAPERS SQUARE dance club of Canyon held an "amateur callers night" Monday with guest callers including Roger Thompson of Dandy Dancers, Herrick Allen of Teen Twirlers, Dub Stewart of Star Twirlers, and Leroy Pitt and Irvin Davis of the host club.

Guest dancers were from the Reddy Squares, Hi-Plains Promenaders, Levis and Lace, Dandy Dancers, Teen Twirlers and Star Twirlers.



MATCH BOXES for the Texas Handicapped Children's Hospital are being located in Canyon as a part of a statewide Jaycee project to raise $30,000 this year to reopen a wing of the hospital in Gonzales. Dean House, left, vice president of the West Texas State Bank discussed the project with Jaycee chairman, Carl Miller.

Carrol Pouncey, representing the Amarillo Chamber of Commerce, explained that the Texas Tourist Development Agency was attempting to entice tourists off the main highways and inter-state systems so they might spend more time and money in Texas.

A total of 72 per cent of tourists polled last year, Pouncey stated, indicated they would follow scenic routes through a state even though it would mean spending more traveling time.

Mrs. Terry C. Martin, president of the Historical Survey Committee, said she would like to submit a list of the 10 markers already in the county to Gov. Connally's committee for possible mention in scenic maps and charts.

"I don't think any part of the country has more natural attractions than we do," declared Randall County Commissioner Clarence Beckman.

Those present at the meeting included Mrs. Martin and Mrs. Grace Warwick, Randall County Historical Survey Committee; Pouncey and Travis Arron, Amarillo Chamber of Commerce; Beckman, Glenn Dowlen and B. R. Jones, Randall County Commission; H. R. Fulton, Jr., Canyon City Commission; Roland Black, Canyon Chamber of Commerce; and Boone McClure, Panhandle Plains Historical Museum.

harvest.

"Hail west of Happy," Brazzil continued, "resulted in some heavy losses and there was scattered hail west of Canyon that shredded leaves on irrigated grain sorghums."

"Farmers that had irrigated grain sorghums either washed or hailed out still have time to replant--there's no problem there," he explained.

The rains that have prepared the soil for dryland grain sorghum planting have also aided the cattle raiser, he declared.

"We have had in the past a shortage of grass on ranges and pastures--this is a significant factor in the livestock business," the agent stated.

Many ranchers have been feeding cattle because of the lack of grass, he said, but this practice will probably soon stop.

Also aiding the livestock business will be an emergency program that released "layout ground" for grazing and haying until July 31, Brazzil stated.

Under the program, farmers will be allowed to lease their "layout ground" from the Agricultural Stabilization Conservation Service for grazing purposes at a rate of $1 per acre per month.

"This will help rest grass that will be growing after the rains until the emergency program ends," Brazzil concluded.

Below are the readings from the Canyon Weather Station on the campus of West Texas State University. These are for the days of June 14 to June 20.

SUMMERTIME WATERMELON is being shared on a new picnic table at Buffalo Lake by front, Mr. and Mrs. H. R. Voyles of San Antonio, Nell Ratliff of Canyon. On the far side of the table are, left to right, Carol, Bob and Ronnie Ratliff. Summer began officially on Wednesday.

Improvements Lauded As

Buffalo Lake Hikes Visitors To 300,000

Summer is the season for picnics, fishing, boating and skiing and these summertime activities are available at Buffalo Lake.

Gordon Hansen, refuge manager, says the attendance figures for the refuge have been recorded in excess of 300,000 this year in comparison with a total figure of 283,000 received for twelve months in 1966.

"We have exceeded last year's total and still have the peak months to go," said Hansen, attributing the increase to a number of improvements which have been made in facilities at the lake in recent months.

"This is the first year that we have been given construction money to work with," said Hansen, "and we hope to get a similar grant for next year to continue our improvement program. In the past the lake has been operated on a maintenance budget only."

Almost 100 picnic units have been added to the western side of the lake. These units include picnic tables, outdoor stoves and covered garbage units.

"We have concentrated our efforts in the busiest sections of the lake, mostly on the western side at present," said Hansen.

Hansen said a contract is currently being let for building of six new public restrooms, a new boat ramp and a restroom-bathhouse combination near the former concession stand.

"The old concession stand will be sold to the highest bidder in the next few days," said Hansen. "To rebuild or remodel it would have cost more than it is worth to the area."

"The lake's use has been increased this spring partly due to the mild warm spring weather, the improved fishing, and the cleanup of the lake facilities," said Hansen.

Roads at the lake are being rebuilt, according to Hansen, who explained that a major access road for two way traffic is currently available and roads into several picnic areas are being made one-way.

"Our old cattle trail roads are being filled in and seeded in grass to make better picnic areas," said Hansen. "Driving in the picnic areas will be restricted with the use of cable barriers and cement blocks in some areas."

Several trees have also been transplanted in the area according to Hansen.

A new zone for skiers has been incorporated in the changes at Buffalo Lake this season, according to Hansen. The sepcial area includes a slalom course and ski-jump which are locked except when under the supervision of members of the sponsoring Panhandle Boat and Ski Club of Amarillo.

Female Mail Carrier Begins Job As Joke

"My job caused a lot of talk at first," recalls Mrs. Billye Russell. She began duties December 17, 1966 as a carrier for the Canyon Post Office.

"She is the first woman that we have had here in more than twenty years," stated Lee Roy Moreland, postmaster. Another female postal employee, Mrs. Teresa Hillier, was recently placed on emergency temporary duty with the post office.

Mrs. Russell recalls that she applied for the civil service examination as a joke and with the idea of higher salary than is customary for a woman.

"I teased the postal clerks for several months about their easy job and then one day--they handed me the application form --so I filled it out," recalls Mrs. Russell. She then took the mandatory civil service tests in Amarillo.

"When I first started work at the post office, people didn't understand why the men kept on with their work as I loaded and unloaded sacks of mail," laughed Mrs. Russell explaining that the job has no discrimination points.

"I started work just before the Christmas rush," said Mrs. Russell. "Everybody took a second look on my first day out. I was carrying the mailbag and one of the men carriers was walking with me to show me the route."

Mrs. Russell's job begins at 6 a.m. each day. She prepares her own satchel at the Post Office and when she leaves on her route about 8:30 each morning, she has a maximum satchel load of 35 pounds. Throughout her route, she stops at relay stations to pick up additional mail for distribution to city residents.

"The relay stations are filled by truck," said Mrs. Russell explaining that her job, like those of male carriers, consists of 12-15 miles of walking each day. "You don't realize that you walk that much though."

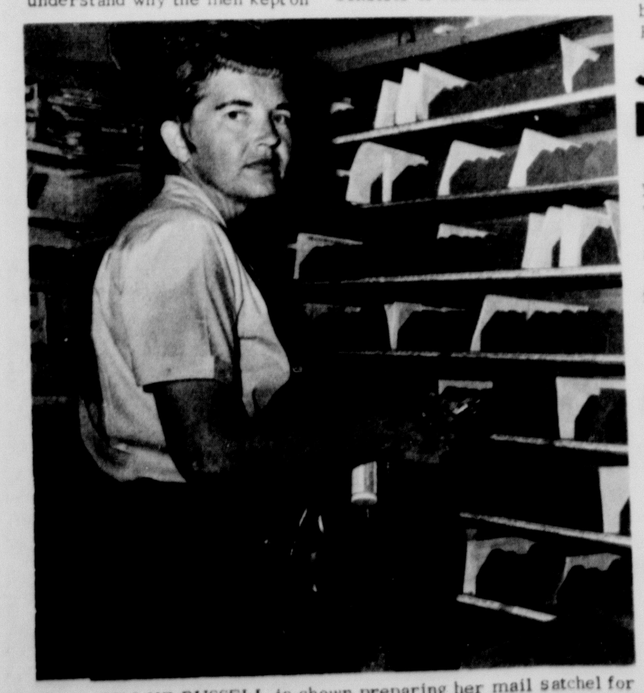
Mrs. Russell said that her most disheartening assignment came during the first few weeks of her new employment. She explained that her first real duties were as a truck driver delivering packages.

"You'd think that it wouldn't be as much work to drive the truck," said Mrs. Russell. "But I found it harder, getting in and out of the truck so many times on a delivery route."

"I've since found that most of the men don't like to work the truck either," she said.

Mrs. Russell has three children including Scott, who graduated from Canyon High School this spring, Connie, who is in the seventh grade, and Kelly, who is a fourth grade student.

As with all postal carriers, man or woman, the dogs do play havoc with the mailman's nerves. "But I haven't had one bite me yet," concludes Mrs. Russell.



MRS. BILLYE RUSSELL is shown preparing her mail satchel for her rounds as a "postman". Mrs. Russell began duties with the Canyon Post Office in December 1966.

Reception Honors Planks Sunday

Mr. and Mrs. E. E. Plank of Canyon will be honored with a reception in commemoration of their 60th wedding anniversary on Sunday.

The informal reception will be held in Fellowship Hall of the First Methodist Church of Canyon between the hours of 2-5 p.m. Friends and relatives of the couple from throughout the Panhandle have been invited for the occasion.

The Planks were married May 19, 1907 in the home of the bride's parents, Omar E. and Malissa Null, southwest of Arnett, Oklahoma. Vows were solemnized by Rev. G.G. Wadsworth, Methodist minister, with members of the immediate families present. The couple's attendants were the bride's brother, Chester Null, and the bridegroom's sister, Mae Plank. The wedding was followed with a reception in the home.

For her wedding, the former Miss Laura A. Null, was attired in a china silk floor length dress with long sleeves and high neckline trimmed in lace. The bridegroom wore a coventional black suit, typical of the period.

As a young girl, Mrs. Plank moved with her parents and family from Red Bud, Kansas to Oklahoma Territory in August 1894 in a covered wagon drawn by a team of two horses. The Nulls brought with them a saddlehorse and fourteen head of cattle with which they started a ranch on homestead land in Grand community, near the Canadian River.

When Mrs. Plank was 12 years old, she began assisting her father, the Deputy District Clerk. She soon took over his responsibilities and the clerkship when her father was appointed U.S. Commissioner of the Western District of Oklahoma Territory. The United States Marshall, Chris Madsen, a noted buffalo hunter and Indian scout enlisted the aid of Mrs. Plank when she was fifteen, to administer oaths and act as a general assistant.

MR. AND MRS. E. E. PLANK.....MAY 19, 1907

In the spring of 1906, Mrs. Plank and her older brother, Chester, attended school in Alva, Oklahoma, where she received a third grade teaching certificate. She then taught a six month school term for 42 pupils at the Valley View School on Commission Creek, approximately halfway between the Grand community and Higgins, Texas.

Mr. Plank, along with three of his brothers and a sister, moved from his home near Harrisonville, Missouri to homestead in the newly opened Cheyenne-Arapahoe reservation area of Oklahoma Territory.

As a member of an ambitious community group, Plank helped to establish and build Arnett, Oklahoma despite competition with the railroad towns of Shattuck and Gage. Arnett was named the county seat of the newly created county of Ellis in the new state of Oklahoma. During this period, Plank was president of the Townsite Company, a charter member of the Farmers and Merchant Bank, which still exists in Arnett. He was also the postmaster, the United States Commissioner and president of the new telephone company.

At the time of his marriage, Plank was owner and publisher of the first newspaper to be published in Ellis County, the "Arnett Leader."

Following the marriage in 1907 and the birth of their first son, Earl, the Planks moved to Rogers County in Arkansas after hearing of the glories of the Ozark Mountains there. They found that life in Arkansas was moving at too slow and easy a pace for ambitious young people so they moved on to Clayton, New Mexico to establish a newspaper.

The Planks soon returned to call Texas their home and became "sod-busters" of open ranch country in Lipscomb County. They later moved to Pampa in order to place their children in better schools.

When David, the Plank's youngest son, was attending West Texas State University, they moved to Canyon to establish their present home, three miles west of the city. The Planks have resided here since 1952.

Children of the Planks, who will be co-hosts for the reception Sunday, are Earl of Hereford, John of Bushland, Esther of Houston, Jay of San Francisco, California, Mrs. Edward Dreiss of Costa Mesa, California, and David of Houston.

Also included in the house-party will be the Plank's grandchildren, great-grandchildren, and sons and daughters-in-laws.

Members of the family will have a fellowship dinner Saturday evening in honor of the Planks and the group will attend Sunday morning services at the First Methodist Church of Canyon in a group.

Scout Day Camp Underway

Annual day camp for Brownies, Girl Scouts and Cadets began Monday with a flurry of activity at the Rod and Gun Club, east of Canyon.

Approximately 140 scouts are participating under the direction of scout leaders, senior scouts and assisting mothers.

Camp begins each morning at 8:30 with flag raising ceremony by a color guard. The ceremony is conducted with scouts and leaders forming a circle around the flagpole and includes a pledge of allegiance to the flag and group singing of "God Bless America".

Scouts are then dispersed to their various troops for morning projects which continue until about 3 o'clock in the afternoon.

Various groups are in charge of gathering wood daily for the campfire at headquarters, which is manned by mothers of the group.

Projects of many types are underway in conjunction with the general camp theme of Hemisfair as each troop is divided into study groups to explore and learn about a different country.

Mrs. Charles Nester, scout executive, is general director for the camp which will conclude with a program on Friday.

POST NASAL DRIP BEGINS IN THE NASOPHARYNX

To maintain moisture, the nasal passageways produce copious quantities of both a watery secretion and a thicker mucous. A certain quantity always lingers in the upper throat or nasopharynx. If an oversupply accumulates, particularly of the mucous, the result is a post-nasal drip.

Some basic causes are air irritants, smoking, chemical or physical damages to membrane, gross deformities in nasal passageways, climate, altitude or humidity. Gargling is not considered effective. Do not neglect medical treatment of post-nasal drip. Otherwise the tissues thicken, resulting in permanent deformities which require surgical correction.

Decoupage Topic For Women's Club

"Decoupage" was the subject of a program presented Monday evening by Mrs. D. R. Weaver for the Canyon Jaycee-Ettes.

The meeting was held in the home of Mrs. Charles Marshall with eight members present including Mesdames Weyman Brown, Jackie Whitley, Meade Michael, Carl Miller, Guy Hamblen, Delbert Turk, Don Fatout and J. W. Sims.

Mrs. Weaver displayed a number of finished decoupage pieces and several iconographs. She explained decoupage as the creative craft of applying a selected picture to a piece of wood which has been prepared to look old. Iconography is the use of religious pictures.

"You can use pictures out of a magazine, off of a calendar or from any source that you select," said Mrs. Weaver. "The picture should first be prepared with a fixative, to save the print."

"The next step is to prepare the wood edges in a rough pattern. Use a wood chisel, a rasp, or a coat hanger or any object to rough up the wood," Mrs. Weaver said. "Then stain the wood with a mixture of paint and turpentine and allow to dry."

"The picture is then applied with a diluted mixture of glue, allowed to dry and finished with numerous layers of satin varnish," she concluded.

Mrs. Weaver was presented with an appreciation gift by the club president, Mrs. Weyman Brown, as the program was concluded.

Can You Match These Mothers and Daughters?*

Mother-daughter and father-son combinations aren't unusual at Southwestern Bell.

There are many reasons for this happy state of affairs. For one thing, ours is a good company to work for. For another, we offer a real opportunity for serving the public, an opportunity that calls for a true "spirit of service." We're pleased and proud so many of our Texas employees suggest a telephone career to their children. By doing so, they help insure the business will be in good hands for many years to come. We think this is a good thing for Southwestern Bell and for our customers.
